MEMORANDUM FOR: Acting Deputy Director for Administration
FROM: [REDACTED]
Director of Security
SUBJECT: Office of Security Significant Activities
Week of 13 - 19 November 1980 (U)
REFERENCE: DDA Administrative Instruction No. 74-5

1. This memorandum is for information only. (U)
2. The activities of the Office of Security during the week of 13 - 19 November 1980 were highlighted by the following items:

a. On 13 November 1980, three members of [REDACTED] [REDACTED] briefed members of ORD and OS on work they are doing on document tagging and detection. [REDACTED] is proposing to use a dual tag concept which employs a high magnetic permeability material and diode technology for taggings. [REDACTED] considers this complementary concept to be cost effective and easy to implement both in detecting and tagging. (S)

b. Overseas activities of the Office of Security during this period included travel by 12 technical security officers who are conducting audio countermeasures inspections in SE, NE, AF, LA, and EUR Division areas; participation by the Chief of Information Systems Security Group in a joint CRAFT survey of stations in [REDACTED] and the presence [REDACTED] (S)

c. During the week, ISSG sponsored a briefing by Mr. Robert Courtney, Manager of Data Security and Privacy of IBM, and two members of his staff at the Headquarters Building regarding IBM's Signature Verification Scheme (authenticates an individual on the basis of a signature previously stored in the computer). IBM has not marketed this technology as yet, but representatives of ODP and ORD attended the briefing to consider any long-term application(s) for this new technology. (U)
